ASSISTANT (GEMINI)

Could you clarify what you need help with regarding PDFs?

If you are looking for assistance with something specific, here are a few common ways I can help:

- **Text Extraction & Summarization:** Paste the text here, and I can summarize it, pull out key takeaways, or format it into bullet points and tables.
- **Editing & Drafting:** Need to write content for a report, cover letter, resume, or document before exporting it as a PDF? I can help draft or edit the text.
- **Tool Recommendations:** If you need software suggestions to merge, split, compress, edit, or sign PDF files, let me know your operating system.

What specific task are you trying to accomplish?
